Bathroom concepts

What does it take to make a great bathroom? Which is the best way to layout the key elements? How do you turn one of the smallest rooms in the house into a perfect refuge to refresh and rejuvenate in?

Jaquar, along with professional interior design experts, offers you a collection of concept suggestions for a range of bathroom sizes - complete with the choice of fittings and even minor details of the décor.

- Ready to use bathroom designs
- Various size options
- Effective space utilisation
- Product selection
- Budget indication
- Actual look and feel of final bathroom

Sanitaryware

Jaquar sanitaryware provides you with a wide range of designs and features to enhance your bathroom décor perfectly. Our wide range of wash basins, offering Wall Hung, Over Counter, Under Counter and Counter top installation are well coordinated with Jaquar's exquisite range of faucets. What's more, our water closets with single piece, coupled and wall mounted options, fit into your coordinated design and installation parameters perfectly. Their user-friendly, as well as two-push-button activated dual flush technology-provide you the choice of using 3 ltr or 6 ltr flush options.

Features

No-Bacteria Zone

Anti Bacterial Glaze is a powerful Fluoro-Polymer coating of 20 to 100 nanometer thickness. It is applied on Jaquar WCs and Wash Basins through a special process and provides the following benefits:

- It forms a strong hydrophobic shield which prevents the build-up of bacteria and germs
- Ideal for India's humid weather conditions
- Renders the surface durable and highly repellent to dirt, oils and liquids
- Facilitates easy removal of hard water deposits

Clean and Odour-free WCs

The interior portion of the traps of water closets are glazed

- Ensures the trap does not collect dirt or gives out odour
- Prevents dirt from sticking inside the trap
- Facilitates easy flushing and waste removal
- Ensures clean and odour-free bathroom

Easy Installation

- Flatness of parts getting fixed to the wall
- No gaps between the wall, floor and the fitting portions of the sanitaryware
- Perfect fitting for a perfect look

Soft Closing Seats

- Load bearing capacity of over 150 kg (seat cover and bushes)
- Shape and texture of the seats unaffected by temperature variations
- Does not absorb room temperature therefore the seats are neither too hot nor too cold to touch
- Surface is resistant to stains and strong dyes
- Does not deform or peel-off with use
- Special buffer oil is used in the hinges for lasting functionality
- Soft-close action to eliminate noise of falling of the cover. This is guaranteed for 2 years
- Adjustable speed of falling of the cover within a range of 1 to 15 seconds

- Warranty

Stringent quality parameters:

- Load Bearing Test 400 kgs for WC & 100 kgs for WB
- Autoclave Test for Craze resistance
- Chemical resistance test to negate the possibility of stains
- Spectro Photometer test for colour stability
- Flushing tests: (a) 100 ball test (b) Ink test

Hi-Flow Thermostats

Jaquar's Hi-flow Thermostat is a thermostatic mixer valve that maintains the temperature of the water flowing out of your shower even at low pressure. It reacts and adjusts thereby preventing scalding or freezing by not letting water temperature get too hot or too cold.

What are the Benefits:

- Jaquar's is the first thermostat that works even at low water pressure, making it suitable for Indian condition
- Temperature remains constant for the complete duration of your shower
- No temperature variation, even if there is a sudden drop in pressure (if someone uses hot water in the kitchen or if someone flushes a toilet)
- In case of a failure of cold water supply, the Thermostat will completely shut off the hot water, preventing scalding from hot water
- Provision of re-starting the shower - no need to adjust the temperature time and again

Features:

- Cartridges made of high performance thermostatic polymer materials that meet the global standards for high and low pressure
- Option of pre-setting the cartridge at a specific temperature (as desired)
- High technology thermoplastic polymer minimises lime-scale build up
- One of the best in terms of temperature regulation and safety in accordance with various standards : NF EN 1111 (marquee NF077), ASSE1016 & NHSD08
- Standard temperature range: 15° C to 60° C (59 – 104 degree F)

Features

Advanced Rubit Technology

A feature that keeps showers clean and increases their longevity. Since the spray jets on the showers are made from elastic silicon, they ensure that no lime scale deposits stick to the shower face. Even if they do, they can be easily rubbed off by hand or flannel.

Click Position System

All Jaquar multi-function showers feature the convenient click mechanism. You can feel and hear the click while changing the function of the shower sprays.

Thermo Insulation

Jaquar insulated shower systems prevent scalding by not heating up the shower body.

Jaquar Booster Technology

Jaquar Booster Technology creates the sensation of a full shower regardless of the water pressure.

Exposed Shower Pipes:

Exposed shower pipes offer a wide shower experience without the need for complex concealed installation. They are available in new refreshing designs that can be integrated into any bathroom design—old, new or renovated. Simultaneous working of showers make bathing experience more enjoyable. Allowing for height adjustment, these showers can be positioned to release the spray either directly or diagonally from above. This exposed application makes it easy to upgrade or renovate your bathroom at any time.

Exposed Shower Pipes

Go Green !

As a major global manufacturer of bathing products, we at Jaquar are well aware of our responsibilities. Conservation of precious water as a natural resource has long been the primary goal of our sustainability efforts to help preserve the living planet for our future generations.

Go Green is a philosophy embraced by Jaquar as a tenet of its design and production system to save water.

Technology that **saves** water

Flow Restrictors

This is a revolutionary technology that lets your taps and showers save upto 80% of water without compromising on the flow. Jaquar Flow Restrictors adjust the flow in both low and high pressure conditions and offer the same voluminous flow every time.

Flow Restrictor

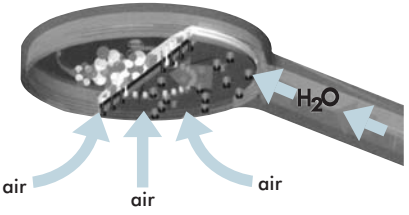
Flow rate options available:
1.4, 2.5, 4.0, 6.0, 8.0, 13 LPM

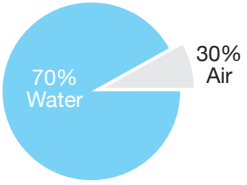
Flow Restrictor

Flow rate options available: 6.0, 8.0 & 12 LPM

Air Showers

Jaquar's Air Showers have a built-in air mixer that mixes air and water in a manner that makes shower drops lighter but voluminous. This revolutionary technology helps Jaquar air showers save up to 30% of water without compromising on the showering experience. Choose from a wide range of Hand and Overhead Jaquar Air showers with single and multi-flow options.





70% Water + 30% Air = 100% Rejuvenation

Pressmatic Faucets

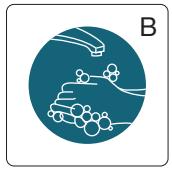
Taps with technology that allows only a fixed quantity (750 ml) of water to flow with every press of its knob. This mechanism not only prevents water wastage during each use, but also provides ease of operation. Jaquar Pressmatic taps are recommended for bathrooms of high traffic locations like restaurants, clubs, hotels, colleges, hospitals, airports etc.

Sensor Faucets

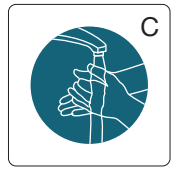
Faucets with technology that allows water to flow only when you need it and shuts it as soon as you move your hands away, resulting in zero wastage of water. There's no better way to save water than when you don't need it e.g., while washing hands with soap, you can save water when lathering. Use Jaquar Sensor taps in high traffic areas like restaurants, clubs, hotels, colleges, hospitals, airports etc.

Three stages of washing hands

Wetting your hands



Making lather with soap



Rinsing your hands

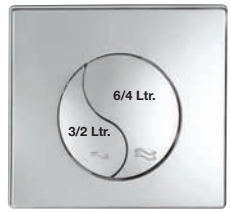
Water consumption chart

	Time consumption in seconds			Water Consumption (A+B+C Stage)	SAVING
	A	B	C		
Single Lever Basin Mixer	5	12	7	4.31 L	BASE*
Sensor Faucet	5	Not in use	7	1.8 L	59%
Pressmatic Faucet	8	Not in use	8	3.01 L	31%

*Base calculation is taken on Florentine basin mixer at 1 bar pressure

Dual Flush

Flushes that use more water than needed are the biggest water wastage culprits in every home. Jaquar's dual flushing systems enable you to use either a combination of 3/6 ltrs of water or 2/4 ltrs of water, depending on your water closet. Jaquar's beta valve is designed to save 50-60% of water every day.



Products that **save** water

Pressmatic Taps
750ml per operation.

Air Showers
Save 30% of water.

Sensor Taps
0.11Ltr. per second.

3/6 Ltrs. flushing systems
Save approx 50% of water.

2/4 Ltrs. flushing systems
Save approx 65% of water.

Sensor urinals
1 Ltr. of water per use.

Faucets

Jaquar faucets provide a great experience with their high quality and high performance. Jaquar's in-house, award winning design team is well integrated in its approach and helps to produce 60000 faucets per day. Our state-of-the-art manufacturing units are backed by a world class testing lab. That's why Jaquar faucets conform to the highest quality and regulatory standards. Jaquar's passion for perfection reflects in the 10 years of warranty it extends on its faucets. Today, Jaquar faucets have about 60% of the market share. The faucets comprise of 22 ranges to suit various design needs, besides a complete range of faucets in single-lever, quarter turn and multi-turn operation.

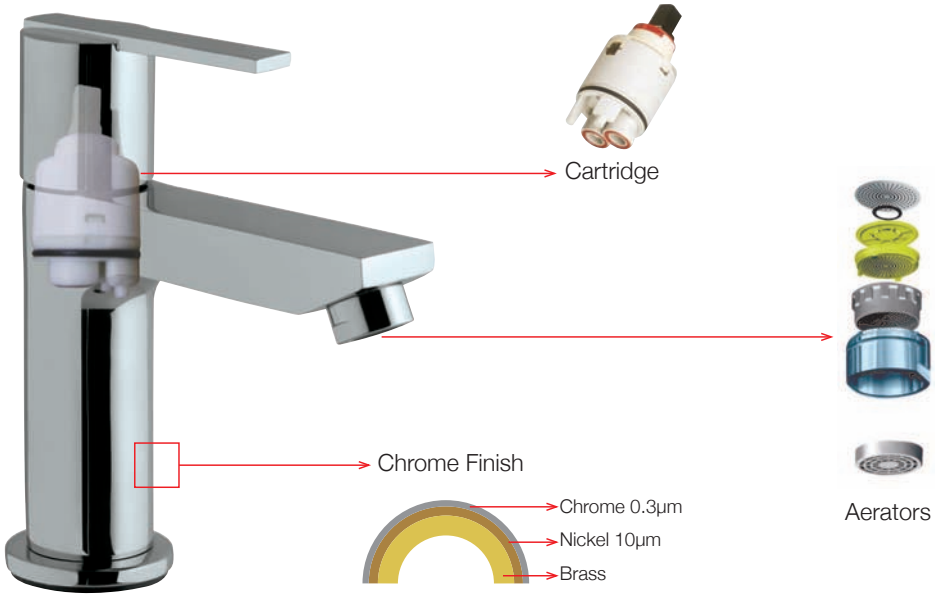
Jaquar Care

Faucet Technology



Cartridges

The heart of every faucet, the cartridge is responsible for controlling water supply.

- Jaquar cartridges are 5 lacs cycle tested to give a longer and trouble free operating life of upto 20 years (considering 60-70 operations per day)
- Wide angle of lever provides ultra comfort and flawless, smooth operation
- Our cartridge spindle is made of brass instead of plastic, to avoid breakage
- Works smoothly even at high temperatures (85 degrees) and in various pressure conditions (0.5 -5 bar)
- Recognised and approved by national bodies NSF -USA, ASME-USA ,WRAS-UK,ACS-FRANCE

Aerators

Devices that mix air with water to give a soft and splash-free flow.

- Our integrated honeycomb-structured aerator, provides lime buildup protection
- Integrated anti-clogging dome screen of the aerator filters sediments and dust particles

Chrome Finish

Upper shiny protection layer provides a mirror finish to every faucet.

- High plating thickness (Nickel: 10 microns and Chrome: 0.3 microns) provides tolerance to extreme climate and water conditions
- 450+ hours of salt spray test ensures our finishes are durable and corrosion resistant

Flushing Systems

In order to bring you the latest and the most advanced bath products, Jaquar, a complete bathing solutions provider presents a design revolution–the superbly designed high quality flush plates manufactured by SIAMP and marketed by Jaquar.

Besides modern designs that offer a sleek look to bath spaces and outstanding features like water-saving, easy access maintenance and anti-condensation, Jaquar Concealed Cisterns ensure that your bathrooms look spacious, clean and hygienic at all times.

Features:

Saves Water: Impressive Dual Flush with a provision of 3/6 ltr flush (Can be adjusted to 2/4 ltrs)

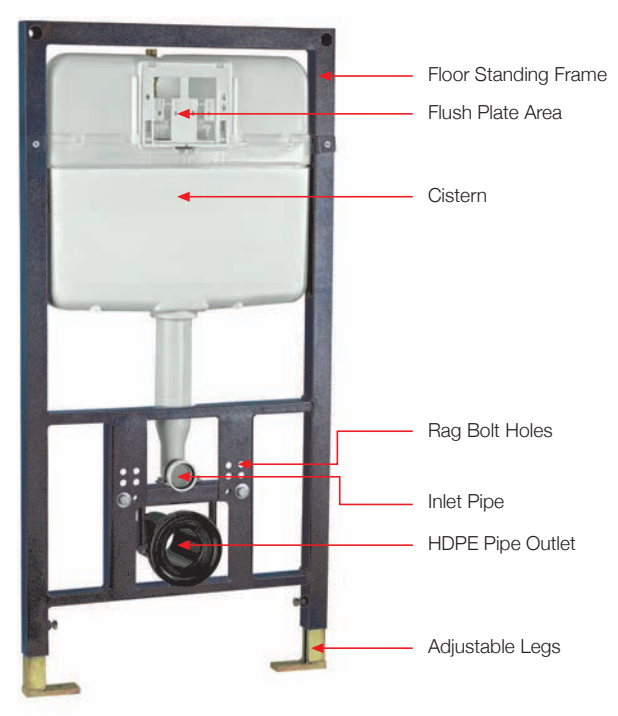
Less Noise: Technically advanced, silent flush valve and fast-filling hydraulic float valve minimises the flushing sound during usage

Perfect Pan Cleaning: Heavy and even water discharge during every flush at every water pressure

No Damage from Condensation: Has anti-condensation lining wrapping the tank and supply bend to protect damage from masonry condensation

Easy to install and maintain

Jaquar's floor standing frames with concealed cisterns not only provide the benefits of easy, quick and perfect installation but also allow you to choose contemporary wall mounted sanitaryware of your choice for the bathroom.



Features:

Easy Installation
Easy and hassle free installation as no chiselling of wall is required

Load Bearing Capacity
Wall hung WC can be bolted simply and securely to the frame, which can take a load of up to 400 kg.

Wide Compatibility of WC
Accommodates different types of wall hung WCs as holes are provided at different heights

Perfect Easy Alignment
Fixed inlet and outlet distance (135 mm from centre to centre) means perfect installation of WC, and pre-defined space for cistern results in perfect flushing every time

Adjustable Height
Adjustable legs (0-200 mm) to allow for variation in heights of WC, as required

material: AISI 304 stainless steel
finish: satin
Rs. 6,500

Spas

Jaquar's Spa models are technological marvels, created to let you relax and restore equilibrium. Jaquar's 'well being circuits' comprise of various seats and a common footrest in the centre. Each seat is strategically fitted with different types of Massage jets in various positions, oriented to massage different parts of the body. By moving from one seat to the other, one can enjoy a complete and satisfying massage which stimulates and relaxes all parts of the body. Cushioned headrests, ergonomic seats and a host of high performance features make this the ultimate home spa experience.

Advantages:

- **De-stress:** A therapeutic massage in a Jaquar Spa is sure to relax and soothe a stressed out body
- **Detoxification:** Helps eliminate bloating and water retention for optimal well-being
- **Improve Blood Circulation:** A combination of massage jets promote better blood circulation

  Hydro Massage: Therapeutic use of warm water massages the body and helps in relaxing the muscles, increase blood circulation, and relieve muscular pain and tension

  Aromatherapy: Aromatherapy reduces muscular aches or pains and relaxes and tones the muscles. It also helps reduce tension, headaches and works as a mood enhancer

  Chromotherapy: Chromotherapy or Color Therapy is the science that uses 7 colours of the spectrum to improve mental as well as physical well-being

Features

THE SPA WELL-BEING CIRCUIT

Enjoy a different massage every day by choosing from the options provided by the Spa well-being circuit. Spas can accommodate from 3 to 6 adults.

1. **NECK, SHOULDERS AND MEDIODORSAL MUSCLES**
   Massage localised on the points where stress is usually felt most.
2. **SHOULDERS AND ALL DORSAL MUSCLES**
   Massage for the large muscle groups of the back. Certain spa versions are fitted with specifc jets for massaging the calves.
3. **NECK**
   A massage of the neck and trapezius muscles relieves the tension caused by a sedentary lifestyle or a long car or aeroplane journey.

4-5. **LOWER DORSAL MUSCLES**
   The pleasant whirling effect targets the lumbar muscles and calves, relaxing and rejuvenating all at the same time.

6. **ANKLES, KNEES AND THIGHS**
   The thighs and the rest of the leg area benefit in particular from these jets.
7. **FEET**
   A pleasant foot massage that soothes tired muscles.
8. **GENERAL MASSAGE**
   The jets located at the bottom of the spa produce a delicate swirling massage that's ideal for relaxing the whole body.

Controls and Jets

The Spa's controls are within easy reach and user-friendly. It's simple to set the temperature, adjust the intensity of the water and air jets, and programme cleaning cycles. The controls are backlit for use at night too.

1. Airpool Jets
Thousands of pure air bubbles generated to caress the body.

2. Target Jets
Generate a precise massage that stimulates specific muscles.

3. Pulse Target Jets
Produce a pulsating and rotary massage through special nozzles.

4. Comfort Jets
Send out a flow whose direction and intensity can be adjusted.

5. Dual Comfort Jets
Generate a sensation of dynamic massage with two rotating nozzles.

6. Rotating Jets
Generate a stationary or rotary flow. The flow of water can be adjusted by turning the outer ring.

7. Random Pulse Jets
Generate a unique, random pulsating massage.

8. Whirlpool Jets
Generate a deep tissue massage. The flow may be increased up to 40% through the Venturi effect obtained by drawing the nozzle out. These jets may be positioned on the floor of the Spa for a gentle massage of the feet, ankles, knees and thighs.

Spas

Neon 206X169 - (3 Seater)

Whirlpools

Jaquar whirlpools bring wellness into your home with great style and panache. Their jets project water in a flowing, circular motion, which offers a wide array of health benefits, including relaxation, improved blood circulation and sore muscle and joint relief. Whatever you desire, whether hot or cold water massages, long relaxing soaks or even chromo therapy, a Jaquar whirlpool can give you it all. Easy to use manual or remote functions flawlessly switch water modes for your benefit.

Advantages:

- **Stress Relief:** Whirlpool bathtubs provide an extra level of stress relief over regular bathtubs. Besides immediate stress relief, using a whirlpool before bed may also help in getting better sleep
- **Better Circulation:** The combination of warm water and massage jets in a whirlpool promotes better blood circulation. A whirlpool helps in dilating blood vessels, and allowing more oxygen and nutrients to flow to major organs
- **Sore Muscle and Joint Relief:** The high-pressure massage that a whirlpool provides can aid in sore muscle and joint relief. Jets could be directed to the site of pain, and the water jets can act as a deep-tissue massage
- **Hydro Massage:** It is the therapeutic use of warm water that massages the body and helps it to relax the muscles, increase blood circulation, and relieve muscular pain and tension
- **Chromotherapy:** Chromotherapy or Color Therapy is the science that uses the 7 colours of the spectrum to improve mental well-being and physical health

Features

The PMMA Advantage

Jaquar bathtubs are made of the highest grade of PMMA acrylic. Due to the reinforcement with 20mm of plywood at the bottom, the tub doesn't develop cracks at the bottom when filled with hot water.

Air Suction Valve

There is an additional pipeline in the water circuit which is connected to all the water jets. This pipeline is connected to a pump with a heating coil which sucks atmospheric air, heats it and distributes it to each and every water jet to boost the jet pressure.

Safety Vacuum Breaker

This is one of the important safety features installed in Jaquar whirlpools. In case of blockage in the suction point the motor switches off automatically.

No Bacteria Formation. Fresh Water Everytime

The water pipes connect via V-shaped housings, creating a bow which ensures the complete drainage of water. Unpleasant odours and, even worse, bacteria are thus avoided.

Environment Friendly

The pipes are made from special Food Grade PVC. These pipes have an anti bacterial coating on the inner side so that even if some drops of water stay behind after the tub is drained, there won't be any bacteria formation in the water droplets.

3 Tier Test

Each and every Jaquar whirlpool goes through a functional test with hot water after which it is tested on a European test machine for earthing resistance, insulation test and a high voltage test.

Easy To Use

The digital/manual control activates all the hydromassage functions, to regulate Airpool intensity. All electronic parts can be installed and removed on site, thus making after-sales, what it should ideally be - a service !

Steam Cabins

For those seeking wellness in the comfort of their homes, a Jaquar Steam Cabin is a great way to enjoy the benefits of humidifying water vapour from a high-quality steam generator.

Advantages:

- **Clearer skin:** Steam showers have the ability to unclog pores and remove deeply trapped congestion from under the surface of the skin
- **Infection treatment:** A major benefit of regular steam showers is relief from respiratory infections
- **Increased circulation:** Steam showers are an excellent way to naturally boost circulation throughout the body. Increased circulation brings more oxygen to cells and decreases the risk of hypertension, hardened arteries and muscle function
- **Stress relief:** One of the most powerful benefits of steam showers is their ability to reduce both physical and mental stress
- **Metabolism and weight loss:** Hot steam increases blood flow by stimulating the lymphatic system which, in turn, helps to speed up the metabolism

Features

Absolute Quality of Materials

Jaquar Hydromassage showers are made of co-extruded acrylic, which does not discolour and has a long life. This hygienic material, together with the smooth surfaces and tempered glass shower enclosures, makes cleaning an easy part of the product experience.

Stability and Mechanical Resistance

Jaquar shower boxes are characterised by stability and solidity thanks to the zinc-plated steel frame that ensures maximum rigidity of all the components. Stability and mechanical resistance are also the attributes of the shower tray reinforcement.

Easy Installation

The installation of the shower boxes is as easy as it can be: the metal frame carries the elements and is simply put together.

Safety

The range of hydromassage showers meets all the relevant safety standards which are currently in effect. Extra safety that goes beyond any norms is part of the product values that any demanding customer can expect from a leading product. For example, the shower tray surface is ribbed, providing for an excellent anti-slip grip. The steam generator will turn itself off automatically after the preset timeout, avoiding wasting energy- and the risk of overdoing a steam bath.

Digital Control

It allows you to manage all manual control functions including sequential back rain jets, back jets, waterfall cervical massage, duration of vertical hydromassage, steam bath function, light, radio and white LED lighting.

Control Units

All the hydromassage shower functions can be simply adjusted through easy-to-use control units.

Manual Control

It allows you to manage showerhead and vertical jets as well as activate the steam-bath function.

Steam Cabins

Anthropos 140X100

Specifications:
Size: 140 x 100 x 225 cm
Code: ANT-WN G-Z5D01E1HX
Top Dx Digital Multi-function Hydromassage Swr Stm Bth, Digital Control, 8 sequential Back Rain Jets, Multi-climate Stm Bth Aroma dispenser, Chromotherapy/light, Axor Starck X Hand Swr, Raindance Air Over Head Swr,240mm Multi-filter, Thermoststic Mixer, Radio, (Free Standing) (Right Ver.)

Code: SKN-BRI-SC1R0B1H5X
Matt White Finish (RightVersion)
Code: SKN-BRI-SC1L0B1H5X
Brilliant Finish (Left Version)
Corner Versions, Shower Steam with/ without glass walls features vertical jets tapware, Headshower, Handshower, Steam bath and Aroma- dispenser with Extractable drawer, Light, Enclosure pivoting 8 mm tempered clear glass with anti- limescale coating.

Noor Steam Panel

Specifications:
NOOR STEAM PANEL
Code: NSC-CHR-C015000000X
Stainless steel column, built-in or wall-mounted and positionable as desired in the shower area, with 3 adjustable vertical (square) with anti-limescale nozzles, Hansgrohe thermostatic mixer and diverter with handshower, cromotheraphy, steam function with manual control and aroma dispenser with extractable drawer.
2.7 kw. steam generator.

Noor Steam Module

Specifications:
NOOR STEAM MODULE
Code: NSC-CHR-MU000BW000X
Stainless steel structure, installabile in built-in or wall-mounted and positionable as desired in the shower area. Steam function with manual control and aromadispenser with extractable drawer. 2.7 KW steam generator.

Steam Cabins

Noor Steam Cabin 120X120

Specifications:
Size: 120 x120 cm
Code: GSB-CHR-GNC20WT5CRX
Right Version-multisteam Function Manual Control Bath Wall Mounted Column From Supporting, Tahermostatic Mixer And Diverter Handshower With Isiflex Flexible Hose And Aroma Dispenser Chromotherapy, stainless steel Overhead Shower.
Code: GSB-CHR-GNC20WT5CLX
Same as above for Corner Left
Code: GSB-WHT-GNC010WT5CX
Corner/Right Version-(description as per Code: GSB-CHR-GNC20WT5CRX)
Code: GSB-WHT-GNC010WT5CL
Same as above for Left Version

Kira 90X90

Specifications:
Size: 90 x 90 x 225 cm
Code: GSB-WHT-BR000B1H0X
Multifunction Steam Bath, Manual Control, Aroma Disp., Multi Filter Thermostatic Mixer, Transparent Sheet, Drain Tap & Light (Corner Ver)

Kira 120X80

Specifications:
Size: 120 x 80 x 225 cm
Code: GSB-WHT-BT000B1H01X
Multif.stm Bth, Manual Control, Aroma Disp., Multi Filter Thermostatic Mixer, Transparent Sheet, Drain Tap & Light (Corner Version)
Code: GSB-WHT-BU000B1H00X
Multif.stm Bth, Manual Control, Aroma Disp., Multi Filter Thermostatic Mixer, Transparent Sheet, Drain Tap & Light (Wall Version)

Techno 105X105

Specifications:
Size: 105 x 105 x 228 cm (Techno Top)
Code: GSB-WHT-AH000E1H00X
Hydromassage Shower With Digital Control,3 Round Maxi Back Jets, 2 Round Back Jets, 4 Neck Jets, Steam Bath, dispenser For Aromatherapy Radio, Overhead Shower, Four Pattern Sliding Hand Shower, Mixer With Diverter, Drain Siphon, Roof Thermostatic Mixer, internal Light Chromothaerapy
Specifications:
Size: 105 x 105 x 228 (Techno Comfort)
Code: GSB-WHT-GQ000B100X
Hydromassage Shower With Manual Control, 3 Round Maxi Vertical Jets, 2 Round Back Jets, 4 Neck Jets, Steam Bath, Dispenser For Aromatherapy Overhead Shower, Four Pattern Sliding Hand Shower, Mixer With Diverter

Shower Panels

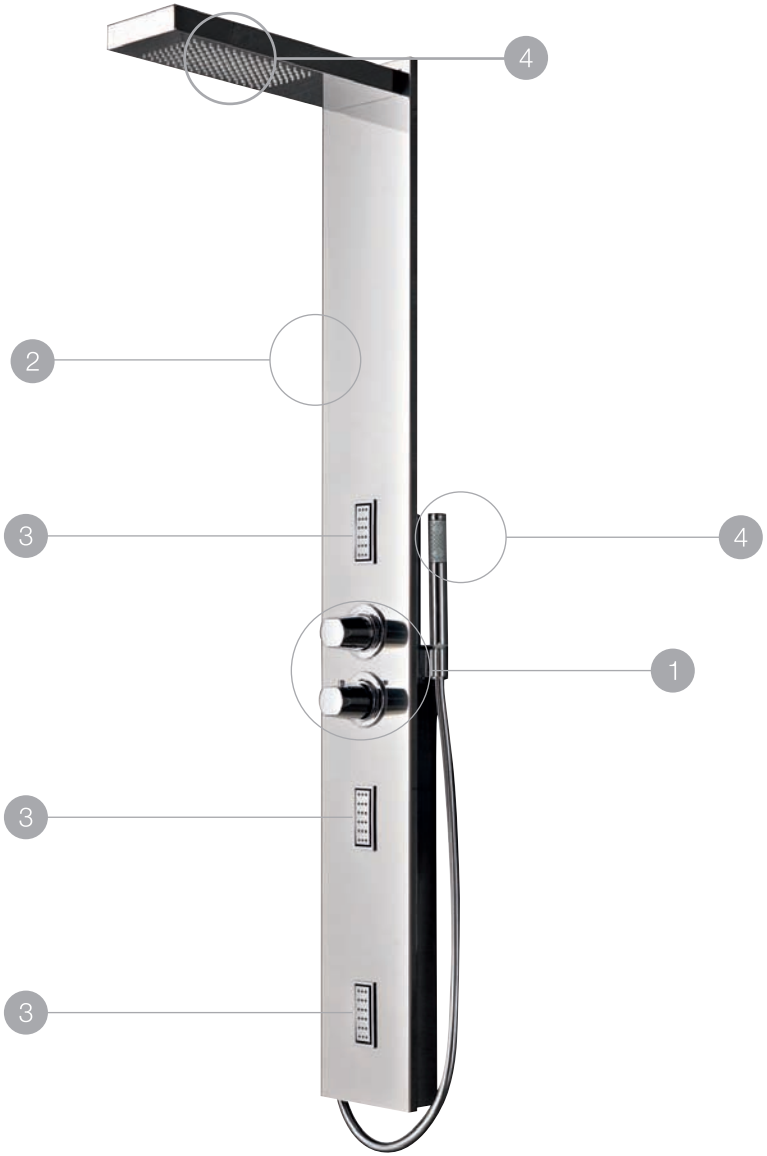
Jaquar's Shower Panels make showering much more convenient, since they are almost like shower stalls which fit even in a small bathroom.

Advantages:

- **Maximisation of bathroom space:** Since they are designed to be mounted on the wall, not much floor space is required to accommodate the unit
- **Versatility:** Instead of using a single shower head, many shower panels are available with multiple water outputs
- **Economical:** Jaquar panels are available in a wide range of prices, styles, colours, sizes and designs to suit different needs

Jaquar shower panels are an easy way to increase the functionality of your existing shower area, as they can neatly fit on to the wall via their wall bars.

Features



1. Thermostatic diverter which ensues anti scalding during showering
2. Jaquar shower panels are made of steel or a PMMA body finish
3. Contains 3 adjustable vertical jets for massaging the neck, waist and thighs
4. Jaquar shower panels are pre-fitted with overhead and hand showers and are easy to install

Shower Panels

Flair

Specifications:
Code: GFL-CHR-GR000B1H00X
Stainless steel structure, Integrated rectangular shower head,
3 adjustable vertical jets (Square), Thermostatic mixer and diverter,
Hand shower with flexible hose.

Look

Specifications:
Code: GLK-CHR-GS000B1H00X
Stainless steel structure, Round overhead shower with 220 mm dia,
Three vertical jets (Round), Thermostatic mixer and diverter,
Hand shower with flexible hose.
Code: GLK-CHR-GS000B1H10X
Stainless steel structure, Round overhead shower with 220 mm dia,
Three vertical jets (Round), Thermostatic mixer and diverter,
Hand shower with flexible hose. Prov.for Spout

Jump Top

Specifications:
Code: GJT-WHT-LG000B1H10X
White Acrylic structure, 3 vertical jets, Thermostatic mixer with diverter,
Hand shower with flexible hose and provision for spout.

Jump Easy

Specifications:
Code: GJE-WHT-LH000B1H00X
White Acrylic structure, 3 Vertical jets,
Thermostatic mixer with diverter, Hand shower with sliding rail.

Shower Panels

Blak

Specifications:
Code: JPL-BLK-JA011
Stainless steel structure, 3 adjustable vertical jets (Square),
Integrated shower head (8" Square), Thermostatic mixer with diverter,
Hand shower with flexible hose, Button Spout, Connecting Hose.

Curve

Specifications:
Code: JPL-SLM-JA021
Adonized Aluminum structure, 3 adjustable vertical jets (Round),
Integrated shower head (8" Round), Thermostatic mixer with diverter,
Hand shower with flexible hose, Button Spout Connecting Hose.

READY-TO-FIT
in standard sizes
Easy to order. Quick delivery.

Shower Enclosures

Jaquar's Ready-to-Fit Shower Enclosures are a must for every bathroom to minimise the dangers of slipping and falling,

- Readily available in standard sizes
- Separates dry and wet areas and optimises bath spaces
- Made of toughened safety glass and high-quality hinges
- Choose from Frameless, Semi-framed and Framed enclosures
- One-stop solution (Design – Installation – Maintenance)
- Available at leading sanitaryware stores

Features

Glass

- **Safety Glass:** 6 mm for Semi-Framed Range and 8 mm Glass for Frameless Range
- **Tempering**: As per European Norms

Semi-Framed Range

- **Hinges with Rise and Fall mechanism:** Rise and Fall Hinges come in our Semi–Framed Range. The mechanism of these hinges is such that the door opens in a slanting angle (not visible to the naked eye) that increases the gap between the floor and the door, which means that the door opens easy and closes water-tight. In addition, the impact on the PVC sealing is less, hence the life of the sealing is much longer

- **Profiles:** The profiles are made of aluminium and first cut to size and then chrome plated. Due to this process, even the edges of these profiles have protection against corrosion in damp air and water

- **Plastic Components:** The pivot bearings, roller holders, corner connections etc. are made of ABS plastic. These are produced using an injection moulding process and dyed

- **Magnetic Beading for Superior Sealing:** A magnetic strip is installed inside the beading, to give a longer life to the magnet. This is as per European norms

- **Handles:** Ergonomically designed handles which give the enclosures a sleek look

Sliding Shower Enclosures (Semi-framed)

- **Ball Bearing Rollers**
  - Durable
  - Moving of door elements are easy and silent

  In other products these rollers are made from plastic, which makes moving door elements difficult and leads to breakage of the rollers quite often

Frameless Range

Hinges:

- Made of brass , fits 8 mm–10 mm flat tempered glass
- Door closes automatically when left open till 30°
- Door swings 90° in and 90° out
- 2 hinges for maximum loading of 40 kgs
- 3 hinges for maximum loading of 55 kgs
- 1 mm/2 mm thick gasket provided with hinges

Glass Connectors:

- Made of brass, fits 8 mm–10 mm flat tempered glass
- 2x2 mm gasket for 8 mm and 2x1 mm gasket for 10 mm

Floor Clamps:

- Made of casted brass with chrome plating

Stabilizers:

- Made of stainless steel
- Provides extra stability
- Protects from vibrations

Towel Bars:

- Mirror-finish
- Made of stainless steel

Door Seals:

- Made of food grade plastic
- Weather-proof , heat-proof , moisture-proof
- Doesn't turn yellowish, thus giving longer life to door seals

Round Beading between the Wall and Fixed Panels (Both Panels):

We provide round beading between the wall and glass panels so as to cover the gap, thus making the enclosure completely watertight. This also eliminates the use of silicon which cracks within 6 to 8 months, and creates spaces for water leakage.

- Customisation: Jaquar Shower Enclosures are customised, and can be created as per your requirements and the size specifications of your bathroom

Water Heaters

Experience unsurpassed, technologically advanced and high-performance water heating appliances through a combined pool of innovative technologies and energy efficient solutions.

A host of features make Jaquar Water Heaters the perfect choice for modern homes:

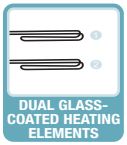
- Dual glass-coated heating elements for higher efficiency
- Electronic controls and changeable colour panels for better display and aesthetics
- High-strength steel tank and blue diamond glass lining technology for best protection against tank corrosion and scaling
- PUF insulation that keeps water hot for a longer time.

Features

Key Features: HSE - SCJ/CEWHR Models

Blue Diamond Glass Lining offers the best protection against scaling and tank corrosion:

The new Blue Diamond glass lining technology with enhanced levels of Zircon increases the life of the water heater.



***Dual Glass-Coated Heating Elements reduce electricity bills, increase life of the heating element and heat water faster:**

Dual Glass-Coated Heating Elements provide extended life to the water heater by preventing scale formation on the element surface. They help in quick water heating. In the unlikely event of one glass-lined element failing, the other element ensures that water gets heated. It is recommended for all areas that have hard water.

Safety Valve discharges water, in case pressure or temperature exceeds preset limits:

This water heater has a temperature and pressure Safety Valve designed to automatically relieve and discharge water in case the pressure or temperature overshoots the preset limits.

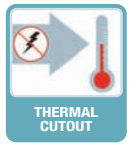
Anode Rod protects the tank from corrosion:

The tank has an Anode Rod system with a stainless steel core that is designed to protect the tank from corrosive elements. The system uses a special cathodic action to fight the corrosive elements which, in turn, prolongs the life of the water heater.

Digital Controls and Display help set temperature and power options:

HSE-SCJ: The Control Panel has an LED screen that displays electricity consumed, set temperature, actual temperature, timer etc. The user can select the set temerature within the range of 25ºC-75ºC and an input mode among 1KW, 2KW and 3 KW. This water heater can retain the set information for 72 hours, even in 'power off' condition. This feature is avaliable with sizes 15 & 25 litres.

CEWHR: The coloured LCD module displays actual temperature and set temperature. The user can select the set temperature within the range of 35ºC-75ºC and an input mode of 1KW, 1.5KW or 2.5 KW. It also displays off-peak, timing, clock and power modes to enable you to set these options.



Thermal Cutout cuts off electrical power to the unit if a fault occurs, ensuring safety:

In case a fault occurs and the water temperature exceeds the highest preset temperature of the thermostat, the breaker rapidly cuts off the live and the zero line simultaneously to guarantee safety.

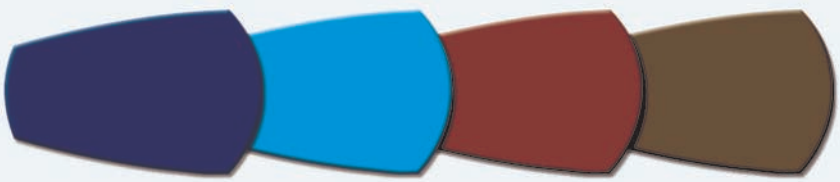
Remote Control Assembly:

A wired remote (available with CEWHR models) with LCD display enables the water heater to be installed in the loft with easy access to all controls through the remote panel.

- Full Digital Display
- On/Off Timer

HSE - SCJ Colour Panel options

A range of Colour Panels allow your water heater to match the colours of your home interiors. Select the colour of the front panel as per your choice.



*These features are availablle only in HSE - SCJ 15 and 25 Ltrs. & CHEWHR MODELS
